

Community Support in Harrogate District during coronavirus

North Yorkshire County Council and Harrogate Borough Council are working with 6 local organisations which are the point of contact for those who are alone and isolated by the pandemic and who have no other local support available.

These 6 organisations are working with local voluntary sector groups and trusted volunteers to arrange: shopping for food and essential items, collecting prescriptions, a friendly listening ear, information & signposting to someone who can help, if they can't.
