

Dear Editor HADCA

Help Ukrainians who have come to live in North Yorkshire.

A1 Community Works & The National Data Bank

Please tell your supporters about A1 Community Works <https://www.a1communityworks.org/>
Crabtree Hall Northallerton & The Good Things Foundation.

We can offer a sim card to any Ukrainian now living or about to arrive in North Yorkshire.
The sim card has unlimited free texts and calls in the UK or a Data Sim. Please promote this scheme to sponsors and tell our Ukrainian guests about the scheme.

To get a sim card, either email karon@a1communityworks.co.uk or ring us on 01609 591 080

We are part of the Good Things National Data Bank the Aim is to provide free internet access to those unable to get online. Telecom companies are working with the Data Bank by providing sim cards to anyone over 18 from a low-income household with no access or insufficient access to the internet. We are covering North Yorkshire.

A1 Community Works has received from Vodafone, O2 and Three. These telecom companies are part of the Data Bank and are giving free sim cards. A1 can provide any person qualifying under the scheme with a sim card that will work for at least six months. The Vodafone and O2 sim cards offer free calls and texts in the UK. The Three card sim is a data- card.

A1 Community Works will discuss individual needs and then decide which sim card is suitable for the applicant.

A1 Community Works is part of the UK's Online Centres Network and works across North Yorkshire, promoting digital inclusion and benefits from being online. We deliver programmes developed by the Good Things Foundation and bespoke workshops about using the internet.
